SUBJECT: Vimy Ridge Academy Remembrance Ceremony

ORIGINATOR: Liz Yule, Assistant Superintendent

RESOURCE STAFF: Michael Chute, Bryan Radmanovich

BACKGROUND

Remembrance Day is set aside to remember all those who gave their lives for the freedoms and privileges we have in this country. Many Canadians have proudly served over the years to preserve peace and freedom. During the last century, Canadian soldiers have served in World War I, World War II, the Korean War, the Gulf War, and now the war in Afghanistan as well as in many peacekeeping operations around the world. More than 118,000 soldiers have paid the ultimate sacrifice for Canada in the name of peace and freedom.

CURRENT SITUATION

This afternoon, the students from Vimy Ridge Academy would like to remember and pay tribute to all those who sacrificed their lives so that we could live in peace. We at Vimy Ridge Academy are continually reminded that the cost of freedom has been great. These students recognize and accept that they are the next generation of Canadians and that they must attend to their responsibilities and be committed to the betterment of society through the daily practice of goodwill.

The following words were taken from a speech that was found in John F. Kennedy's pocket on the day of his assassination---a speech that he never gave. He wrote:

We...in this generation are by destiny rather than by choice, the watchmen on the walls of world freedom. We ask, therefore, that we be worthy of our power and responsibility and that we may exercise our strength with wisdom and restraint. And, that we may achieve, in our time and for all time, the ancient vision of: Peace on Earth and goodwill toward all man.

Our young people have been handed a legacy. They do remember. They will not forget.

KEY POINTS

The following is the sequence of events that will be followed for this afternoon's Remembrance Service (approximate time of service—20 minutes):

J. Trustee and Board Requests for Information

Trustee Gibson stated that the District achievement results for 2016-2017 were released October 17, 2017. He said that despite a strong District focus on numeracy, Grade 6 Math Provincial Achievement Tests (PATs) exhibit a declining trend since 2012. Trustee Gibson requested the following information:

- Do the Math Intervention Programming Instrument (MIPI) results of the past several years show a need for improvement in the same areas as that demonstrated in the Grade 6 Provincial Achievement Tests (PATs) results?
- How useful of a predictor is the MIPI of PATs performance or would there be value in further adjusting the MIPI?
- The number of English Language Learners (ELL) students has increased since 2012. Do the Grade 6 math PAT results just for ELL students suggest a need for additional math strategies for ELL students?
- What are the Grade 6 math PAT results since 2012 just for boys, and just for girls? Do such results indicate a need for additional math strategies that differentiate between boys and girls?

Trustee Gibson stated enrolment of elementary aged students, including children coded with mild, moderate, and severe special needs continues to rise for Edmonton Public Schools.

Trustee Gibson requested the following information:

- What strategies does the District employ to ensure each Pre-Kindergarten, Kindergarten, Division 1 and Division 2 students are assessed by the appropriate professionals for learning challenges?
- Does the District receive sufficient funding for timely assessments? If not, does the District track the size and trend in the numbers of students awaiting assessments?

MINUTE BOOK

- Is there an argument for advocacy that the additional costs of sufficient early assessments is more than recovered by reducing the costs of interventions that are put in place because the learning challenge has not been identified in a timely manner?

ISSUE

The District funded Dr. Sangita Sharma to evaluate our work in the Alberta Education School Nutrition Program at Norwood and Inglewood Schools.

BACKGROUND

In the 2016-17 school year the province launched a school nutrition pilot. Norwood and Inglewood are the two District schools participating in the pilot. This work is done in partnership with e4c. The pilot provided the District with the opportunity to explore the delivery of a fresh foods approach to school nutrition.

To learn from the pilot experience, the District funded Dr. Sangita Sharma to conduct a research project focused on the pilot schools. Dr. Sharma is a Centennial Professor and Endowed Chair of Indigenous Health in the Faculty of Medicine and Dentistry at the University of Alberta.

The findings from Dr. Sharma's research will serve to inform the nutrition program at Norwood and Inglewood Schools, and the District will leverage this information to share with all District schools who offer nutrition programming as a support for students. Additionally, it is our intention to provide Alberta Education with a summary of the research to support the provincial initiative.

CURRENT SITUATION

Dr. Sharma will present a preliminary summary of her findings at the November 7^h Board meeting.
