

Lottery Process

To address growing student enrolment and space shortages at schools, Edmonton Public Schools has implemented a new lottery process.

Schools that have reached capacity will implement a lottery process for **new students** coming to their school. Each grade will be capped at a certain number of classes and students, depending on the school's enrolment limit. This will ensure enrolment does not exceed available space.

How the process works

For more information or questions, please contact your designated school or Programs and Student Accommodation at 780-429-8539.
