

Lottery Process

Edmonton Public Schools has a lottery process for schools at Level 3 on the [Growth Control Model](#).

Schools that have reached capacity will implement a lottery process for **new students** coming to their school. Each grade will be capped at a certain number of classes, depending on the school's enrolment limit. This will ensure enrolment does not exceed available space.

How the process works

*A student is considered to be a resident student of Edmonton Public Schools if they have at least one parent or guardian living in Edmonton who is not Roman Catholic.
